Summary

Passionate Flutter Developer with 1+ year of professional experience building high-performance, cross-platform mobile applications. Skilled in Flutter, Dart, Firebase, REST APIs, and state management using BLoC, with a strong focus on clean architecture, responsive UI, and smooth user experiences. Experienced in developing scalable applications from concept to deployment while prioritizing performance, maintainability, and modern design principles. Continuously expanding my skills and building production-quality projects that demonstrate strong problem-solving abilities and attention to detail.

Skills

- Programming Languages

- Dart
 - Java
 - Python
 - C++

Architecture

- Cloud Firestore
 - Firebase Realtime Database
 - SQLite

Additional Skills

- Fast Touch Typing
 - Mobile Hardware Troubleshooting
 - Mobile Software Troubleshooting
 - Strong Teamwork
 - Excellent Communication
 - Problem Solving
 - Time Management
 - Adaptability

Frameworks & Technologies

- Flutter
 - Firebase
 - REST APIs

Development Practices

- Responsive UI Design
 - Performance Optimization
 - Debugging & Troubleshooting
 - JSON Serialization
 - API Integration
 - Version Control

Databases

- Cloud Firestore
 - Firebase Realtime Database
 - SQLite
 -

Technical Support

- Mobile Hardware Troubleshooting
 - Mobile Software Troubleshooting

Projects

Shoppy — E-Commerce App, *Flutter Mobile Application | E-Commerce | Firebase Integration*

- Developed a full-featured e-commerce mobile application using Flutter with a modern and responsive user interface.
- Implemented product browsing, categories, product details, cart management, and checkout functionality.
- Integrated Firebase services for real-time data management and user authentication.
- Applied BLoC state management and clean architecture principles to create a scalable and maintainable application.
- Focused on smooth user experience, performance optimization, and reusable UI components.

Flowerly — E-Commerce Flower Shop App , *Flutter | Firebase | BLoC | Clean Architecture*

- Developed a modern flower shopping application with a smooth and responsive user interface.
- Implemented product browsing, categories, cart management, and order flow.
- Integrated Firebase services for authentication and real-time data management.
- Focused on clean architecture, reusable components, and optimized app performance.

MealGo — Food Delivery Application , *Flutter | Firebase | REST APIs | BLoC*

- Built a complete food delivery application with a modern UI and seamless user experience.
- Implemented restaurant browsing, food categories, product details, cart functionality, and order management.
- Added smooth animations and responsive layouts for different screen sizes.
- Applied scalable Flutter architecture and performance optimization techniques.

SpendWise — Expense Tracker Application , *Flutter | Firebase | Local Storage | BLoC*

- Created a personal finance application to track expenses and manage spending habits.
- Designed dashboards with expense summaries and category-based analytics.
- Implemented data persistence and efficient state management.
- Focused on clean UI, usability, and maintainable code structure.

Chattly — Real-Time Chat Application , *Flutter | Firebase | Firestore | Authentication*

- Developed a real-time messaging application with secure authentication and live conversations.
- Implemented user profiles, chat rooms, and message synchronization using Firebase.
- Designed a modern chat interface with smooth animations and optimized performance.
- Focused on scalable backend integration and user experience.

Offers — Local Deals Marketplace, *Collaborative project · Flutter, Dart ·*

- Developed a real-time messaging application with secure authentication and live conversations.
- Implemented user profiles, chat rooms, and message synchronization using Firebase.
- Designed a modern chat interface with smooth animations and optimized performance.
- Focused on scalable backend integration and user experience.
